

Description

Whether laying sod is a normal part of your day-to-day operation or just an occasional chore, the Bobcat® sod layer attachment can make the job go more quickly and efficiently. The sod layer attachment can carry and lay a roll of sod up to 1219 mm wide, making it ideal for larger landscaping jobs. And because it mounts to the front of a Bobcat® loader, it's manoeuvrable enough for those smaller jobs where space restrictions are a concern.
